

FAIQ SUBHANI

Video Editor & Content creator

Video Editor and digital content creator specializing in high retention, trend driven visual storytelling. With a background in building digital products and running affiliate marketing, I don't just edit videos, I understand how to structure pacing and engaging formats that actually drive sales. Fast, resourceful, and obsessed with delivering high quality edits under tight deadlines.

Experience

Freelance Video Editor & Content Creator (2025 – Present)

- Currently producing and editing a documentary-style video breakdown of the Foodpanda business model, handling everything from scriptwriting to the final CapCut edit.
- Focused on high retention editing techniques, dynamic pacing, and visual storytelling tailored for modern social media algorithms.

Chief Deputy Officer IT | CM Punjab MUN (March 2026)

- Redesigned the official logo and upgraded the core brand identity for a major MUN event.
- Delivered clean, professional assets that were successfully deployed across their official social media channels.

Digital Lead | Rangila Restaurant (2026)

- Modernized the digital operations for an established, 40-year-old local business.
- Designed the new brand logo and utilized rapid AI-assisted development to build and deploy a custom website and a functional Point of Sale (POS) system.

Freelance Digital Consultant (Ongoing)

- Built custom tech and digital projects for university clients, focusing on fast turnarounds and practical problem-solving.
- Experience in Amazon Affiliate marketing and content writing, giving me a strong understanding of consumer psychology and digital sales funnels.

My Skills

Video Editing: Advanced CapCut (Desktop & Mobile), high-retention short-form editing, dynamic text animation, social-native sound design, trending audio pacing.

Graphic & UI Design: Canva Pro, rapid prototyping, clean UI/UX layout aesthetics, brand identity deployment.

Tech & Strategy: AI-assisted rapid development ("vibe coding"), content scripting, Amazon affiliate sales funnels, trend forecasting.
